

QUICK FIX

Stop: Don't toss that broken brooch sitting in your jewelry box! Repurpose it into a hair accessory. You can glue it to a headband, hair comb or barrette. We especially love the look of this sparkly clip for weddings - talk about instant hair appeal. Here's how: Using a glue gun, dab a small amount of glue onto the top of a plain hair clip, then press the brooch into the glue to hold. It's that simple.

EDITOR'S CHOICE
EYE SHADOW

The colours in this palette (LANCÔME COLOR DESIGN 5 SHADOW AND LINER PALETTE, 4 G, \$54, LANCOME.CA) are soft without being boring, with a subtle shimmer to brighten eyes and a coal-coloured liner for more drama once the sun sets. The shades were created by Canadian artist Corno and makeup heavyweight Lancôme, so it's no wonder there are no duds in the colour department. Six other pieces in the limited-edition collection (like a bright coral blush) will also delight.

The percentage of Canadian Living readers polled on our website who do not apply sunscreen every day.

WHAT THE PROS KNOW

Sunblock is your best bet for preventing lines and wrinkles, sunburns, skin cancer, freckles and age spots. To ensure you apply enough sunscreen to your body, put a coat of sunscreen on until everything appears covered, and then do it all over again.
